

The International Congress of BMT 2018

23rd Annual Congress of KSBMT

For the best stem cell transplantation

August 30 (Thu) ~ September 1 (Sat), 2018

BEXCO, BUSAN, KOREA

The International Congress of BMT 2018 Overview

“For the best stem cell transplantation”

Date	August 30 ^(Thu) - September 1 ^(Sat) , 2018
Venue	BEXCO, Busan, Korea
Homepage	icbmt.or.kr

Call for Abstract by Monday, May 21, 2018

Early-bird Registration Deadline

May 31 (Thu), 2018

[Go to Registration!](#) →

Travel Awards

- Overseas Participants Only
- Must sign up and Pre-register online with full payment
- Must attend the meeting

*“Submit your abstracts and
win a chance to be awarded
USD 1000 !”*

Topics

1. Acute myeloid Leukemia

- › Diagnosis and prognostication
- › Treatment including induction treatment, stem cell transplantation and salvage treatment
- › Clinical trials including novel drugs

2. Acute lymphoblastic leukemia

- › Diagnosis and prognostication
- › Treatment including induction treatment, stem cell transplantation and salvage treatment
- › Clinical trials including novel drugs

3. Bone marrow failure including diagnosis and management

- › Aplastic anemia
- › Myelodysplastic syndrome
- › Other disorders

4. Acute lymphoblastic leukemia

- › In vitro and pre-clinical study
- › Clinical trials with cell therapy

5. Blood and marrow collection and processing

- › Hematopoietic stem cell collection
- › Mobilization and processing
- › Growth factors and cytokines

6. Infectious Complications

- › Acute infectious complications related with stem cell transplantation
- › Late infectious complications from transplant survivors
- › Vaccination and prevention of infection

7. Lymphoma

- › Genomics of lymphoma
- › Induction and salvage treatment for lymphoma
- › Autologous and allogeneic stem cell transplantation for lymphoma
- › Post-transplantation failure management

8. Post-Transplant Complications (Non-Infective)

- › Acute and chronic GVHD
- › Other acute complications
- › Late complications
- › Long-term survivor management

9. Myeloma

- › Genomics of myeloma
- › Induction and salvage treatment for myeloma
- › Autologous and allogeneic stem cell transplantation for myeloma
- › Post-transplantation failure management

10. Nursing/Allied Health

- › Quality of life
- › Stem cell donation
- › Nursing care for stem cell transplantation
- › Nutritional support
- › Education of post-transplant survivors

11. Pediatrics Hematology/Oncology

- › Pediatric hematologic malignancy
- › Pediatric oncology

12. Transplantation process and preparative Regimens

- › Conditioning regimens
- › Transplantation protocols
- › Cord blood transplantation
- › Haploidentical transplantation
- › Donor selection process

13. Stem Cell Biology

- › Cancer stem cells
- › Hematopoietic stem cells

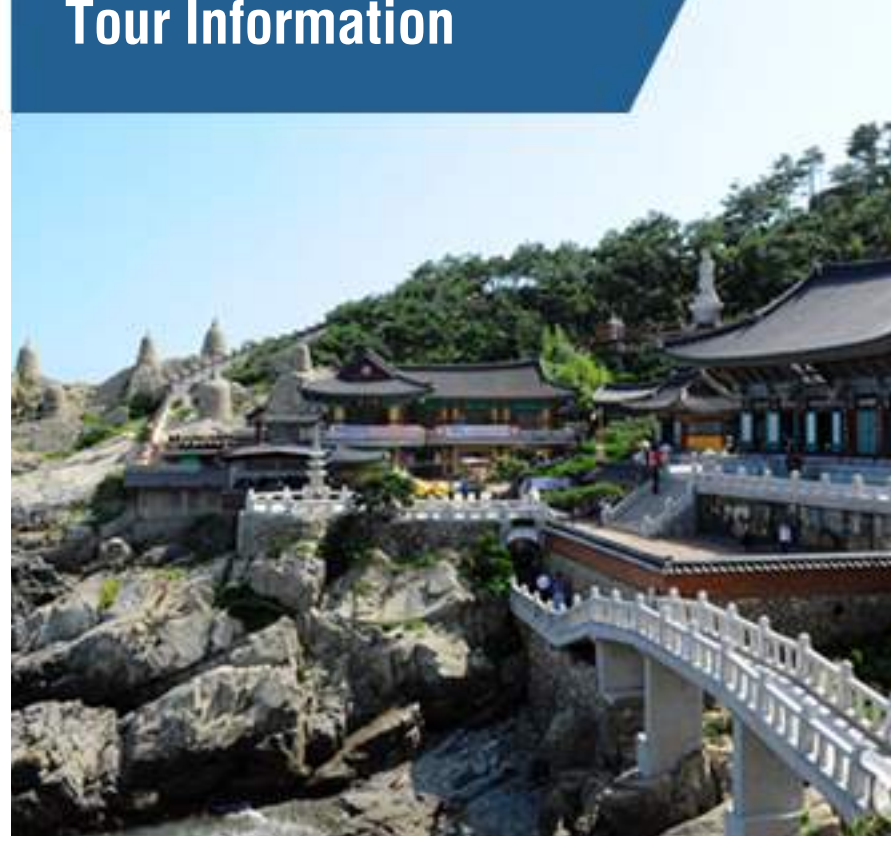

14. Others

Welcome to Busan, Korea!

Busan, a bustling city of approximately 3.6 million residents, is located on the southeastern tip of the Korean peninsula. The natural environment of Busan is a harmonious relationship of mountains, rivers and sea. Its geography includes a coastline featuring superb beaches and scenic cliffs, mountains which provide excellent hiking and extraordinary views with hot springs scattered throughout the city. Busan enjoys four distinct seasons and a temperate climate that never gets too hot or too cold. The city's natural endowments and rich history have resulted in Busan's increasing reputation as a world class city for tourism and culture, and it is also becoming renowned as a hot spot destination for international conventions.
